

Wednesday, July 15, 2015 - Proudly Serving Satan

Twice, in Jesus' Sermon on the Mount, the Lord mentions situations where individuals, who conduct their lives in such a way, "that they may have glory of men..." that in doing so, "they have received their reward."

We live in a world of individuals who desire their "15 minutes of fame" regardless the cost. Often the cost comes in the form of doing Satan's work and innocent lives pay the price.

This site has dealt with the sin of abortion many times through the years. Unfortunately, many don't realize what occurs to the body parts of the murdered babies.

On Tuesday, an antiabortion group released an undercover video of an official at Planned Parenthood discussing in graphic detail how to abort a fetus to preserve its organs for medical research — as well as the costs associated with sharing that tissue with scientists. The complete video is 3 hours in length. It is graphic, disgusting, nauseating and vile. More importantly, it shows the reality of Satan at work in our world.

I have attached a link to an eight minute segment from this disgusting "business" and the people who glory in it's work.
