Daniel Dennett:

Concerning Parents Who Teach Their Children Something Other Than Evolution:

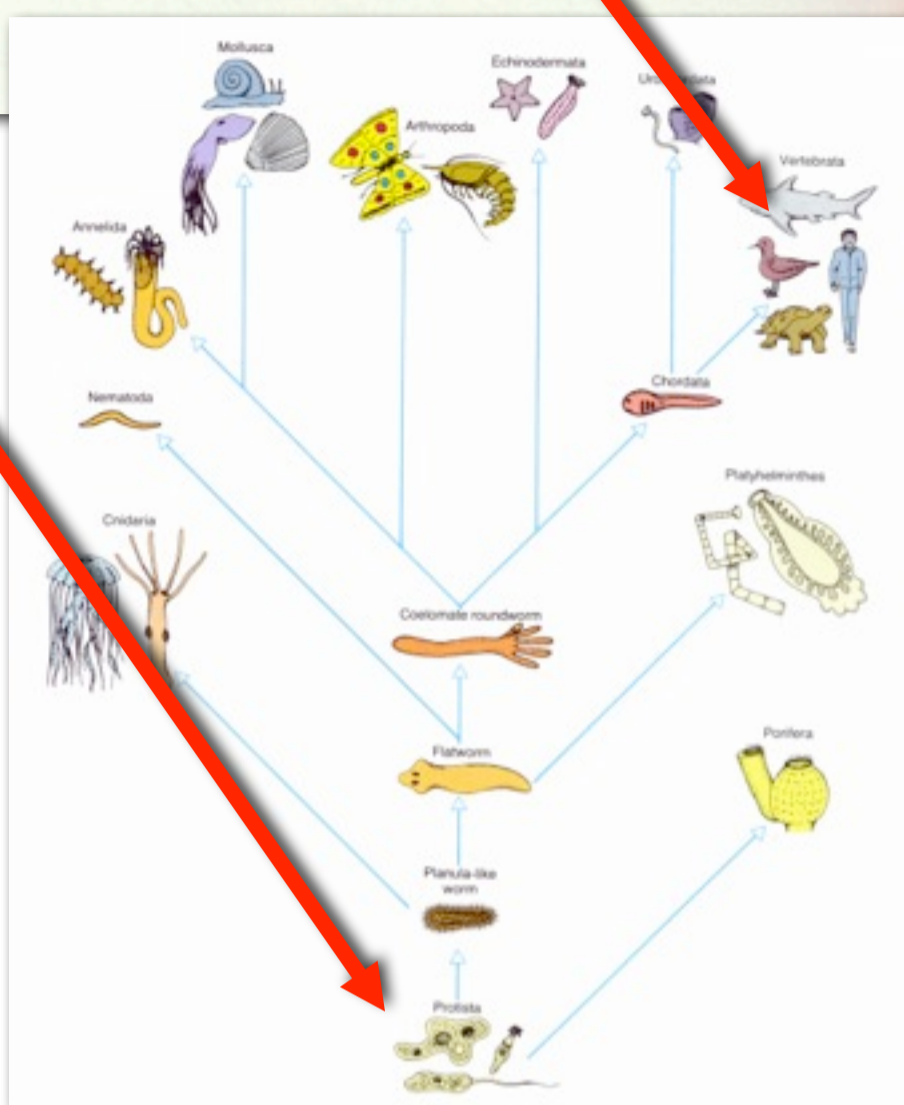

“Those of us who have freedom of speech will feel free to describe your teachings as the spreading of falsehoods, and will attempt to demonstrate this to your children at our earliest opportunity.”

Darwin's Dangerous Idea, 1995, NY: Simon and Schuster, p. 519.

Humans are an important part of the earth environment. Together with every other living organism, humans probably evolved from bacteria that lived more than 4 billion years ago. What kinds of organisms do you think will evolve over the next 4 billion years?

Don't Rob God

"Should people cheat God? Yet you have cheated me! "But you ask, "What do you mean? When did I cheat you of the tithes and offerings due to me. You are under a curse, for your whole nation has been cursed because you have not brought the storehouse so there will be enough food in my Temple. If you do," says the LORD Almighty, "I will..."

A FLAWED BOOK?

“People who are free of theological bias notice that the bible contains hundreds of discrepancies.... The bible is a flawed book.”

“Every analyst of the Bible should realize that the Book is a veritable miasma of contradictions, inconsistencies, inaccuracies, poor science, bad math, inaccurate geography, immoralities, degenerate heroes, false prophecies, boring repetitions, childish superstitions, silly miracles, and dry-as-dust discourse. But contradictions remain the most obvious, the most potent, the most easily proven, and the most common problem to plague the Book.”

McKinsey, Dennis (1995), *The Encyclopedia of Biblical Errancy*, p. 71.

The Beast

When her father, a biblical scholar, mysteriously disappears, a Christian high-school student named Danielle investigates. She discovers that he had stumbled across a cover-up of Christianity's best-kept secret:
That Jesus Christ never existed.

Now that she possesses proof of this dangerous fact, Danielle must confront two strong forces: A band of fundamentalist Christians who will stop at nothing to suppress the truth, and her own desire for Jesus Christ to be real.

Diving into factual territory well-explored by scholars but largely hidden from the view of the public, **The Beast** is an epic story of innocence lost, faith in crisis, and the astonishing power of the truth to survive.

294 ♦ UNIT 2 ♦ How Does Energy Affect Matter?

Oil and gas The other two major fossil fuels are **petroleum** and **natural gas**. The formation of these two fuels is not yet fully understood. Both are thought to form from the decay of organisms that once lived in the sea. The remains of these organisms settled to the sea floor and were gradually covered by sediments. After millions of years, the remains were slowly changed by heat and pressure into a substance made mostly of hydrogen and carbon. Such substances are called hydrocarbons. Petroleum, which is often called oil, and natural gas are mixtures of many different hydrocarbons.

Oil and gas are from “organisms that once lived in the sea. ...changed by heat and pressure” ... into oil.

Tuesday, January 12, 2010

Did Noah have enough time to build the Ark?

Four men could have cut, dressed, and installed about 15 cubic feet of lumber per day. Thus, if Noah and his sons had worked 6 days per week, they could have installed 4,680 cubic feet per year. If we safely estimate the ark would have required 380,000 cubic feet of wood then it would have only required Noah and his sons 81 years to accomplish this feat. (Morris and LeHaye)

Liberty Ship 'SS Jeremiah O'Brien' - Alive and Steaming

LIBERTY SHIPS - BORN IN WORLD WAR II 1941 to 1945

Visit America's answer to Hitler's U-Boats - one of the last of 2,711 identical armed Merchant Ships built to carry "beans, bullets, and black oil" to our fighting men around the world. Built faster than the Axis could sink them from a simple British design using identical parts made in hundreds of factories across America. Liberty Ship construction set all-time records: only 60 days average from keel laying to launch.

The National Liberty Ship Memorial is crewed entirely by Volunteers and is a Registered Historic Landmark

Tuesday, January 12, 2010

How did Noah collect the animals?

Noah simply had to provide the ark of the appropriate dimensions with a door that would allow the animals to enter two-by-two.

Fascinating descent to lost aircrafts' deep icy tomb ...

The P-38 Lightning was one of the deadliest planes to come out of WWII. Powered by twin 1200-hp Allison V-12 engines, it had one 20mm cannon and four .50 calibre machine guns in its nose. Operational from 1941–49, the nickname given to it by German pilots, on account of its double tail, was *Der Gabelschwanz Teufel* (the fork-tailed devil). They are a highly prized collector's item; only five were believed to still be flying at the time that the Lost Squadron P-38 was salvaged — under c. 75 metres (250 feet) of solid ice!
